

Name: Abdul Wahab

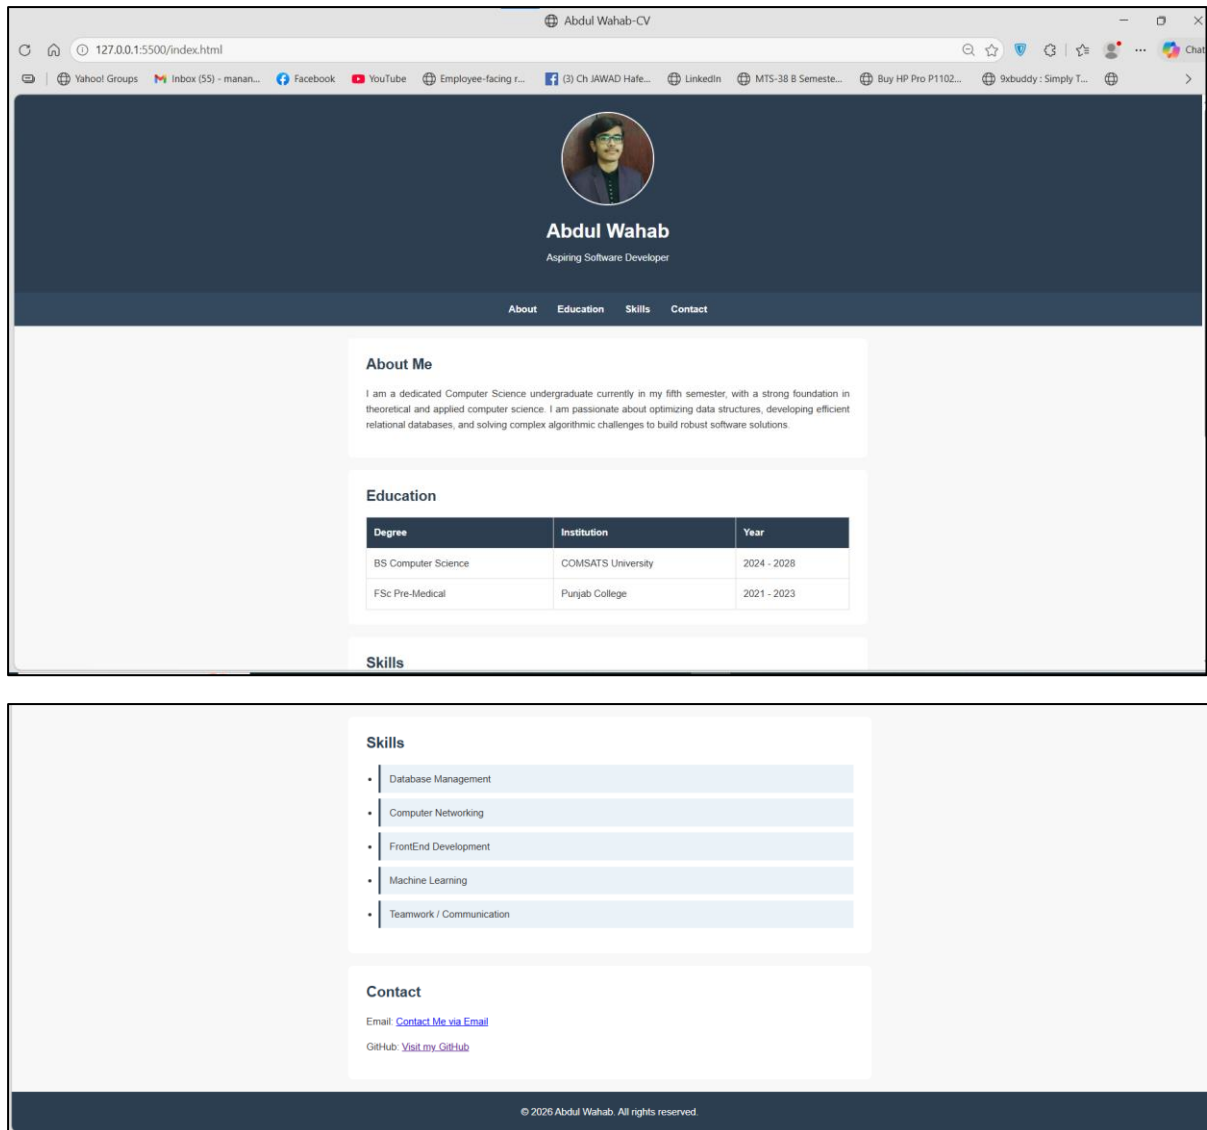

Roll No. : FA24-BCS-004

Assignment 1 — Your Personal CV Page

Task: Build a single-page personal CV/résumé as a static HTML + CSS website — no JavaScript, no framework, just semantic HTML5 and hand-written CSS. This is where you prove you actually know the raw building blocks before anything is allowed to hide them from you.

Your page must include, at minimum:

- A header with your name, a short professional tagline, and a photo (a placeholder image is fine).
- An “About Me” section.
- An “Education” section listing your academic history in a semantic list or table.
- A “Skills” section.
- A “Contact” section with a real `<a href="mailto:...">` link and at least one social/portfolio link.
- Correct use of semantic HTML5 elements throughout — `<header>`, `<nav>`, `<main>`, `<section>`, `<article>`, `<footer>` as appropriate, not a page built entirely out of unstyled `<div>`s.
- Styling entirely in a separate `styles.css` file (external stylesheet, not inline `style=""` attributes) using the box model correctly — sensible margins, padding, and borders, not everything jammed against everything else.

Code:

HTML

```
<!doctype html>
```

```
<html lang="en">
```

```
<head>
```

```
<meta charset="UTF-8" />
```

```
<meta name="viewport" content="width=device-width, initial-scale=1.0" />
```

```
<title>Abdul Wahab-CV</title>
```

```
<link rel="stylesheet" href="style.css" />
```

```
</head>
```

```
<body>
  <header>
    
    <h1>Abdul Wahab</h1>
    <p>Aspiring Software Developer</p>
  </header>

  <nav>
    <a href="#about">About</a>
    <a href="#education">Education</a>
    <a href="#skills">Skills</a>
    <a href="#contact">Contact</a>
  </nav>

  <main>
